This month we will look at FOLD. For teaching purposes the dancers should be aware that the inactive dancers (the non-folders) do not move. The Folding dancers Fold either behind or in front of the inactive dancers.

**DEFINITION:** From any two dancer formation which the directed dancer has a shoulder directly adjacent to the other dancer, the directed dancers step forward and move in a small semi-circle to end facing toward an adjacent dancer or position. The adjacent inactive dancer may be facing in any direction and does not move. If not specified, centers Fold toward ends and vice versa.
